ON THE COVER

Megan is an upcoming senior at Prosper High School. She is interested in fashion and design. She chose to showcase her love of art and the fashion industry.

Right now, I'm sure you're looking at a ton of different options for your senior portraits. And I'm honored, to say the least, that you're considering me as one of them.

Senior portrait photography is my passion. It's always been my motto that if you can't put your whole heart into it, you shouldn't do it. Your senior portraits are something I put my whole heart into. I aim to make every senior that walks into my studio feel like they matter. Like they are my number one priority that day and for all our days together. I focus on a low volume, high quality experience.

I am constantly searching for new locations, while still being able to utilize current ones without overuse and the same poses. I aim to further my education every single year to keep up with the most modern trends, flattering poses and up-to-date techniques to make your portrait experience fresh, fun and timeless. It's always a goal for me to be able to make your images stand out. To make you the star, the focus. I want your classmates to look at your senior images and think, they went to Natalie Roberson Photogarphy.

It's imperative that we showcase your personality through this whole process. Because these images are 100% uniquely you. Your ideas, whatever they may be and wherever they may take us, are so important to me. Whether it's flying in a plane as a prop or being photographed in your favorite place, let's make that happen.

Once you become a client, I am there through every step of the process. I will aid you in every area that you may need help with. From choosing locations and outfits to assisting you with decisions for what to hang in your home, I am there. Open communication is key for me. Let me help you make your senior pictures a time in your life you will never forget.

Professional

HAIR & MAKEUP STYLING

MH MAKEUP AND HAIR

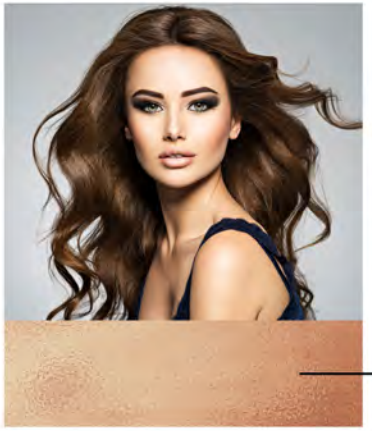
Professional hair and makeup makes a world of a difference for your senior portraits. Here are three reasons we require hair & makeup styling for our senior sessions.

CONFIDENCE

When you feel like you look good, your confidence level is boosted dramatically. Being relaxed and feeling confident in yourself can really show through on photos. Our goal is to capture the real you and there really is no better way to do that than when you can be yourself and not stress about your appearance.

APPLICATION

A professional hair and makeup artist understands photography and lighting. They know that under these circumstances you'll need more and they will apply their knowledge on the day of the shoot. Also, with up to 2 hours of shooting, you'll need some extra makeup to withstand the days vigorous activities.



Professional hair and makeup artists spend years honing their craft. They're comfortable contouring any face to make it look the best in all light in front of the camera, choose colors that are flattering to your skin tone, and prepare hair so no humidity can kill your curls.

EXPERIENCE

WE BELIEVE IN CREATING SENIOR PHOTOS THAT WILL MAKE YOUR FRIENDS JEALOUS.

The senior photo shoot that Natalie did for my daughter brought tears to my eyes. She did an amazing job capturing the spirit of my daughter in photographs. Natalie is a master at making you feel 100% comfortable while being photographed. She has an uncanny ability to capture the exact moments that are so real and show day to day life. I was so satisfied with her work that I later used her for family portraits and several friends have been referred also.

I could not be more thrilled with how amazing my senior portraits turned out! Not only do I love my pictures but the session with Natalie was so much fun. She had so many great ideas and let me incorporate all of my soccer stuff.
